Technical specifications

Parameter	Specification
Type	Auxiliary guide roller for cable laying on cable trays
Material	Nylon housing and stainless steel hardware
Inside diameter	65 mm
Clamp opening	18 mm
Side entry	27 mm
Weight	212 g per piece
Fastening	Clamp with ring screw for the tray edge

Technical specifications

Parameter	Specification
Orientation	Adjustable using wing nut
Sales unit	1 piece
Dimensional note	Nominal dimensions of the green version

Applications

Cable Tray Laying
Auxiliary guide to support cable passage during installation.

Direction Changes
Adjustable orientation to adapt guidance to the route and cable bend radius.

Installation and maintenance
Temporary mounting on a compatible edge for network, CCTV and telecommunications work.

Cable Entry into Access Boxes
Guide the cable toward a box opening during laying, reducing edge friction without forcing the bend radius.

Packaging & contents

1 complete green guide roller with clamp and adjustment screws. Cables and tray not included.

Warranty

KONGIA 5-year warranty.
