Technical specifications

Parameter	Specification
Orientation	Adjustable using wing nut
Sales unit	1 piece
Dimensional note	Nominal dimensions of the gray version

Applications

Cable Tray Laying

Auxiliary guide to support cable passage during installation.

Direction Changes

Adjustable orientation to adapt guidance to the route and cable bend radius.

Installation and maintenance

Temporary mounting on a compatible edge for network, CCTV and telecommunications work.

Cable Entry into Access Boxes

Guide the cable toward a box opening during laying, reducing edge friction without forcing the bend radius.

Packaging & contents

1 complete gray guide roller with clamp and adjustment screws. Cables and tray not included.

Warranty

KONGIA 5-year warranty.
