6-Port Keystone Wall Plate basic label-free, White

Structured Cabling / Wall Plates

KONGIA white 6-port basic Keystone wall plate without labels, in a 70 × 115 mm US 1-gang format. Accepts 6 Keystone modules for RJ45, fiber or multimedia, supporting high-density areas, laboratories, telecommunications and service consolidation. Made of high-impact white PC/ABS with a UL94V-0 material rating. Includes two mounting screws and provides a professional finish for structured cabling.

KW-FPB6-WH-US

Series
Basic series without labels

Product type
Modular wall plate for Keystone modules

Format
Vertical US 1-gang

Key features

- 6 Keystone Ports for combining network, telephony, fiber or multimedia
- Minimalist front without labels for a clean, easy-to-maintain appearance
- Practical configuration for cost-sensitive projects without limiting Keystone modularity
- Suitable for homes, small offices, shops and network renovations
- US 1-gang format of 70 × 115 mm for recessed boxes or surface mounting
- High-impact white PC/ABS with UL94V-0 material rating
- Compatible with Cat5e, Cat6, Cat6A, fiber optic and multimedia Keystone modules
- Two white screws included for a uniform visual finish
- Individually replaceable modules for easier expansion and maintenance

Technical specifications

Parameter	Specification
Product code	KW-FPB6-WH-US
Series	Basic series without labels
Product type	Modular wall plate for Keystone modules

Technical specifications

Parameter	Specification
Format	Vertical US 1-gang
Capacity	6 Keystone ports
Nominal dimensions	70 × 115 mm
Material	High-impact virgin PC/ABS
Material flammability rating	UL94V-0

Identification system	Plain front without label
Module compatibility	Keystone RJ45 Cat5e/Cat6/Cat6A, voice, fiber and multimedia
Mounting compatibility	US 1-gang recessed box and KW-BB2X4-WH-US surface box
Fastening	Two screws included
Application	Indoors
Administration practice	Compatible with TIA-606-C infrastructure documentation
Recommended temperature	-10 °C to 60 °C
Recommended humidity	10% to 90% RH, non-condensing
Warranty	5 years

Applications

User Points and Workstations
Configures high-density areas, laboratories, telecommunications and service consolidation in one vertical 1-gang plate. Modularity allows RJ45 jacks, fiber adapters or multimedia modules to be selected according to the project.

Offices, Shops and Institutional Buildings
Integrates the telecommunications outlet with a uniform appearance and facilitates future module replacement without changing the entire plate.

Copper and Fiber Structured Cabling
Compatible with Keystone modules for Cat5e, Cat6, Cat6A, telephony, fiber optics and audiovisual applications; the final category depends on the installed module and link.

Homes and Renovation Projects
The unlabeled front maintains a discreet appearance when identification is kept in drawings, patch panels or external documentation.

Packaging & contents

Contents: 1 KONGIA wall plate and 2 white screws. Labeled series include inserts and transparent covers according to the model. Packaging: individual protective bag with SKU label, batch code and port information.

Warranty

KONGIA 5-year warranty.
