- Applications in networks, CCTV, alarms, telephony and low voltage
- Select the diameter without compressing or deforming the cable
- RoHS, REACH SVHC, CE DoC, CNAS and ISO 9001 as the standard documentation set

Technical specifications

Parameter	Specification
Product type	Round cable clip with nail
Nominal diameter	8 mm
Body material	PE
Body color	White / natural

Technical specifications

Parameter	Specification
Nail material	Galvanized steel
Fastening type	Mechanical, using a nail
Cables per clip	One individual round cable
Intended surface	Indoor substrate suitable for nailing
Installation	Manual, with a suitable tool
Application	Networks, CCTV, alarms, telephony and low voltage
Quantity	100 pieces per bag
Product color	White
Intended use	Indoors
Selection	Clip diameter must match the actual cable
Precaution	Do not compress, pierce or deform the cable
Unpublished values	Load, pull-out strength, outdoor use and service life subject to final documentation
Warranty	5 years

Applications

Networks
Visible fastening of a data cable on an indoor surface suitable for nailing.

CCTV
Camera or signal cable routing with the corresponding diameter selected.

Alarm
Organization of sensor and control cabling on indoor routes.

Telephony
Retention of round communication cables without compressing their jackets.

Offices and shops
Orderly routes on walls, baseboards or wood where the substrate accepts a nail.

Packaging & contents

Resealable KONGIA bag with 100 pieces of SKU KG-CC-R-08. Cables, tools, equipment and surfaces shown in application images are not included.

Warranty

KONGIA 5-year warranty. Excludes normal wear, incorrect selection, incompatible surfaces, poor installation, modification, reused adhesive and outdoor or unintended use.

Declared compliance

RoHS · ISO 9001 · REACH · CE Compliant · CNAS
