

Adjustable CAT5/CAT7 RJ45 Pass-Through and RJ11/RJ12 Crimping Tool Set

Professional Installations / Network Tools

Black tool with CAT5/CAT7 adjustment for modular termination, cutting and stripping. Includes screwdriver and two spare blades.

KG-NT-CT-PT728

Type

Manual crimping tool with CAT5/CAT7 adjustment

Functions

Crimping, cutting and stripping

Connectors

RJ45 8P and RJ11/RJ12 6P

Key features

- CAT5/CAT7 adjustment for different plug geometries
- RJ45 8P and RJ11/RJ12 6P cavities
- Integrated cutting and stripping
- Metal-clip crimping area
- Ratchet and non-slip handles

Technical specifications

Parameter	Specification
Type	Manual crimping tool with CAT5/CAT7 adjustment
Functions	Crimping, cutting and stripping
Connectors	RJ45 8P and RJ11/RJ12 6P
Reference categories	Cat5, Cat5e, Cat6, Cat6A and Cat7
Plug type	Standard and Pass-Through; shielded or unshielded, depending on die adjustment
Adjustment	CAT5/CAT7 selector using a screw

Technical specifications

Parameter	Specification
Retention	Metal-clip crimping area
Mechanism	Ratchet and lock/unlock
Construction	Carbon-steel body and non-slip handles
Stripping	Round and flat cables
Color	Black
Compatibility	Check connector geometry and adjustment position before crimping

Applications

Network installation

Termination of compatible plugs in cabling projects.

Maintenance

Connector replacement and link verification after the work.

Telephony

Preparation of 6-position modular terminations.

Network equipment relocation

Prepare patch cords of suitable lengths for new switch or workstation positions and verify each termination before connecting it.

Packaging & contents

1 crimping tool, 1 screwdriver, 1 spare crimping blade and 1 spare cutting blade.
