

Professional Network Structured Cabling Toolkit with Zipper Case

Professional Installations / Network Tools

Professional structured cabling kit. Contains crimper, punch-down tool, network tester, wire stripper and zippered organizer case.

KG-NT-KIT-PRO100

Main Components

8P/6P modular crimper, 110 punch-down tool, RJ45/RJ11 cable tester, compact stripper, zippered organizer case

Compatible Cables

Cat5e, Cat6, Cat6A UTP/FTP, telephone cable

Crimper Mechanism

Ratchet system with emergency release

Key features

- Balanced set of frequently used tools for voice, data and CCTV system installers
- Ratcheting crimper ensures full pressure before releasing the connector
- Punch-down insertion tool with internal storage for a spare blade
- Network cable tester with variable-speed sequential LED display (fast/slow)
- Ring-style stripper for safe circumferential cuts without penetrating pair insulation
- Compact ballistic-fabric case with zipper and individual elastic loops for each tool
- Design intended for professional installation and repetitive use
- Robust construction for field work and network maintenance

Technical specifications

Parameter	Specification
Main Components	8P/6P modular crimper, 110 punch-down tool, RJ45/RJ11 cable tester, compact stripper, zippered organizer case
Compatible Cables	Cat5e, Cat6, Cat6A UTP/FTP, telephone cable
Crimper Mechanism	Ratchet system with emergency release

Technical specifications

Parameter	Specification
Power Supply	Standard 9V battery for the tester
Case Dimensions	220 mm x 135 mm x 50 mm
Total Weight	820 g
Packaging	Individual blister / industrial box packaging with sealed protection. Includes user manual and safety specifications.
Professional Use	everyday work by installers and integrators requiring modular termination, IDC punch-down, cable preparation and diagnostics in one solution
Selection Criteria	Confirm category, connector type, wire gauge, outer diameter and termination procedure before using the tool
Quality Control	Visual, dimensional and functional inspection by production batch
RoHS	Restriction of hazardous substances according to the applicable declaration
REACH SVHC	Assessment of substances of very high concern according to the current declaration
CE DoC	CE Declaration of Conformity available for the applicable product or family
CNAS	Test report issued by a CNAS-accredited laboratory, when included in the batch documentation
ISO 9001	Manufacturer's certified quality management system
Warranty	5 years

Applications

LAN commissioning. Termination of jacks in user outlets and crimping patch cables in floor racks.

Helps organize the workflow and verify each termination before putting the link into service.

Technical service and field support. Portable kit easily carried in a technician's backpack for troubleshooting visits.

Suitable for technicians requiring repeatable, controlled operation in the field or workshop.

Security systems and IP cameras. Quick termination and checking of security cameras and PoE switches.

Documenting the result and checking component compatibility before project handover is recommended.

Installer training

Practice preparation, termination and fault identification on test cables using only the functions included in the kit.

Packaging & contents

Individual blister / industrial box packaging with sealed protection. Includes user manual and safety specifications.

Warranty

KONGIA 5-year warranty.

Declared compliance
