Pack size	1 tool in individual packaging with card
Warranty	5 years

Applications

LAN link preparation

Remove the jacket from compatible cables before arranging pairs and terminating an RJ45 plug or jack.

Telephony and modular cable

Prepare flat or round cables that fit the guide for voice terminations.

Network outlet maintenance

Trim damaged ends and re-prepare the cable before replacing the connector.

IP camera cabling

Prepare the end of a compatible network cable before termination and link testing.

Workshop and training

Practice depth adjustment on samples and visually check that internal insulation is not damaged.

Packaging & contents

Includes 1 KONGIA manual wire stripper and cutter. Individual packaging with card. Cables, connectors and case shown in scenes are not included.

Warranty

KONGIA 5-year warranty.
