KG-PI-FT-DA01

Type

Portable semi-automatic cable puller

Operation

Assisted by an external drill, not included

Function

Assisted feeding and pulling for cable installation

Key features

- Drill assistance: Uses an external drill to help feed and pull cable.
- Handheld format: Grip handle for supporting and guiding the device during cable installation.
- 210 × 140 mm: Nominal overall height and width for a compact tool.
- Installation and maintenance: Assistance for cable installation in compatible conduits and raceways.

Technical specifications

Parameter	Specification
Type	Portable semi-automatic cable puller
Operation	Assisted by an external drill, not included
Function	Assisted feeding and pulling for cable installation
Format	Handheld tool with grip
Nominal overall height	210 mm
Nominal width	140 mm
Housing	Plastic

Technical specifications

Parameter	Specification
Color	Orange handle, light front panel and black rear body
Intended use	Cable installation in conduits and wall raceways
Compatibility	Confirm drill coupling and cable suitability before use
Sales unit	1 device
Working condition	Installation with the circuit de-energized

Applications

Wall raceways

Assistance for feeding and pulling cable through compatible conduits.

Installation and renovation

Handheld tool to assist cable installation along prepared routes.

Networks and telecommunications

Assistance with cabling work when the cable and coupling are compatible.

Replacement of damaged cable runs

Feed a fish tape into the cleared conduit to pull the replacement cable, checking for unobstructed passage and allowable pulling force.

Packaging & contents

1 portable semi-automatic cable puller. Drill, cables, conduits and auxiliary tools not included.

Warranty

KONGIA 5-year warranty.
