Product type

Fish tape with fiberglass rod

Fish tape material

Fiberglass-reinforced rod

Rod color

Yellow

Key features

- Yellow fiberglass-reinforced rod, nominal diameter Ø4 mm
- Flexible metal leader with pulling loop for securing the cable
- An option for routes where a non-metallic rod is preferred, without claiming insulation of the assembly
- Work only with the system de-energized and verified
- Nominal length: 20 m (65.62 ft)
- Circular ABS reel with ribbed black handle for transport and operation
- Individual packaging: 1 unit
- Applications in structured cabling, CCTV, telecommunications and commercial raceways
- Length selection through variants of the same tool type
- Standard documentation set: RoHS, REACH SVHC, CE DoC, CNAS and ISO 9001

Technical specifications

Parameter	Specification
Product type	Fish tape with fiberglass rod
Fish tape material	Fiberglass-reinforced rod
Rod color	Yellow

Technical specifications

Parameter	Specification
Nominal rod diameter	Ø4 mm
Pulling terminal	Flexible metal leader with pulling loop
Electrical statement	The assembly is not claimed to be insulated or suitable for energized work
Nominal length	20 m
Equivalent length	65.62 ft
Reel material	ABS
Reel color	Orange with black handle
Reel format	Circular with central opening
Pack size	1 unit
Intended use	Cable installation in conduit, concealed tubing and telecommunications raceways
Mandatory working condition	De-energize, lock out where applicable and verify absence of voltage
Unpublished values	Load, pulling force, minimum radius, service life and electrical properties are subject to final traceable documentation
Warranty	5 years

Applications

Structured cabling

Data cable installation in conduit; the 20 m length helps plan the route without joining fish tapes.

CCTV and electronic security

Routing of network, signal or control cable through prepared, de-energized raceways.

Telecommunications rooms

Routes between cabinets, trays, raceways and pull boxes during expansions or maintenance.

Commercial installation

Feeding a fish tape into concealed tubing or surface conduit before attaching the cable to the pulling terminal.

Office renovation

Assistance with retrieving or adding cabling in existing routes after inspecting the path.

Packaging & contents

KONGIA box with 1 fish tape of 20 m. Check the fish tape, reel and terminal before use. Cables, PPE and auxiliary tools not included.

Warranty

KONGIA 5-year warranty. Does not cover normal wear, overload, forced bends, cuts, storage corrosion, modified accessories, work on energized circuits or use outside the intended application.

Declared compliance

RoHS · ISO 9001 · REACH · CE Compliant · CNAS
