

Modular Rolling Tool Box System

Professional Installations / Tool Storage & Organization

KONGIA modular PP system with stackable boxes, metal latches, wheels, a telescopic handle and six configurations for transporting tools, meters and consumables.

SISTEMA MODULAR DE HERRAMIENTAS 6 configuraciones • Módulos apilables

Herramientas y accesorios de ejemplo no incluidos

KG-TS-MRTB

KG-TS-MRTB

Product type

Modular Rolling Tool Box System

Main material

High-impact polypropylene (PP)

Configuration

4 individual modules + 2-piece set + complete 4-piece system

Key features

- Six selectable configurations
- Stackable modules with quick locking
- Rolling base with large wheels
- Telescopic handle for transport
- Metal latches
- Transparent organizer for small parts
- Separation of tools, meters and consumables
- Purchase by module or as a complete system

Technical specifications

Parameter	Specification
Parent SKU	KG-TS-MRTB
Product type	Modular Rolling Tool Box System
Main material	High-impact polypropylene (PP)
Configuration	4 individual modules + 2-piece set + complete 4-piece system

Technical specifications

Parameter	Specification
Reference color	Black / orange
Structure	Stackable modular system
Mobility	Large wheels + telescopic handle on the 2090 base
Latches	Metal
Organizer	Transparent lid on module 2093
Handles	Integrated, depending on the module
Branding	KONGIA label, patch or printing according to OEM capability
Application	Networks, CCTV, optical fiber, telecommunications, access control and maintenance
Market	Installers, integrators, contractors and service teams
Contents	Contents depend on the variant: individual module, 2-piece set or 4-piece system. Tools not included.
Standard documentation	RoHS · REACH SVHC · CE DoC · CNAS · ISO 9001
IP rating	Not declared
Load capacity	Not declared unless expressly stated in the datasheet
Warranty	5 years

Applications

Structured cabling

Transport of punch-down tools, meters, consumables and accessories.

CCTV and security

Organization of tools and fasteners for multi-site installation.

Optical fiber

Separation of equipment, consumables and delicate accessories.

Data center

Movement of an organized kit between rows and technical rooms.

Industrial maintenance

Sorting of hand tools and consumables by module.

Packaging & contents

Individual or set packaging, depending on the configuration, with KONGIA identification, SKU, barcode and country of origin. Contents depend on the variant: individual module, 2-piece set or 4-piece system. Tools not included. Confirm master-carton quantity, weight and shipping dimensions in the approved quotation.

Warranty

KONGIA 5-year warranty. Excludes overload, normal wear, cuts, drops, modification, forced closures, exposure outside specifications and incorrect use or storage.

Declared compliance

RoHS · ISO 9001 · REACH · CE Compliant · CNAS
