Product overview

KONGIA KG-TS-MWB-01 Pro keeps small ferromagnetic fasteners close to your working hand during DIY, installation and maintenance. Twenty integrated magnets provide a broad holding area for compatible screws, nuts, bolts, nails, washers and driver bits, helping reduce repeated trips to the toolbox.

The 1680D ballistic polyester exterior is designed for demanding everyday use. A soft, breathable padded mesh lining supports wearing comfort, while the adjustable hook-and-loop closure lets you adjust the fit. Two pockets in different sizes also accommodate small non-magnetic items. The wristband is black with orange pocket edges and orange stitching.

A practical tool accessory for installers, carpenters, mechanics, handymen and DIY enthusiasts, and a useful gift for birthdays, holidays or Father's Day. Each sales unit contains one wristband. Tools, fasteners and other demonstration accessories shown in the images are not included.

Key features

- 20 integrated magnets hold compatible small ferromagnetic parts close to hand
- Durable 1680D ballistic polyester exterior
- Soft, breathable padded mesh lining for wearing comfort
- Adjustable hook-and-loop closure
- Two pockets in different sizes for small non-magnetic items
- Unfolded dimensions: 39 × 9 cm
- Black fabric with orange trim and stitching
- One wristband per sales unit; demonstration accessories not included

Applications

DIY and furniture assembly - Keep compatible screws and driver bits close while assembling furniture and carrying out home repairs.

Carpentry and installation - Organize small fasteners during woodworking, rack installation and camera mounting.

Maintenance and auto repair - Keep compatible nuts, washers and bits accessible at the work position.

Contents & packaging

1 KONGIA Pro magnetic wristband per sales unit. Tools, bits, screws and other accessories shown are not included. Confirm master-carton quantities and shipping dimensions before bulk orders.

Warranty

KONGIA 5-year warranty. Excludes overload, normal wear, cuts, drops, modification, forced closures, exposure outside specifications and incorrect use or storage.
