Product overview

KONGIA KG-TS-TB-01 Pro combines 1680D ballistic polyester with double stitching and metal rivets at stress points for demanding everyday tool storage. Its black fabric and orange trim provide a distinctive professional appearance. The 1680D material is a central specification of this Pro model.

Twenty-six pockets organize hand tools, tape measures, drivers and small parts. Three magnetic zones - one above the hammer holder and one on the front of each side pouch - keep compatible screws, nails and other small ferromagnetic items accessible. Magnetic holding depends on the item and contact area.

Reconfigure two detachable side pouches and a detachable hammer holder along the adjustable belt. The 2 in wide belt and quick-release buckle support convenient fitting and removal, with an intended waist range of 31-48 in. Supplied in a retail box, it is a practical gift for electricians, carpenters, contractors, plumbers and DIY enthusiasts. Tools shown are demonstration accessories and are not included.

Key features

- Heavy-duty 1680D ballistic polyester with double stitching
- Metal rivet reinforcement at stress points
- 26 pockets for tools and small parts
- 3 magnetic zones for compatible ferromagnetic fasteners
- 3 detachable modules: 2 side pouches and 1 hammer holder
- Adjustable waist fit: 31-48 in (approximately 79-122 cm)
- 2 in wide belt with quick-release buckle
- Retail gift box included; demonstration tools not included

Applications

Electrical installation - Keep drivers, pliers and compatible fasteners organized at the work position.

Carpentry and construction - Arrange hand tools and a hammer for woodworking, framing and general installation.

Maintenance and DIY - Adapt the removable modules for repairs, plumbing and home-improvement tasks.

Contents & packaging

One complete tool-belt set: 1 adjustable belt, 2 detachable side pouches, 1 detachable hammer holder and 1 retail gift box. Tools, screws, nails and other demonstration accessories are not included.

Warranty

KONGIA 5-year warranty. Excludes overload, normal wear, cuts, drops, modification, forced closures, exposure outside specifications and incorrect use or storage.
