Product overview

KONGIA KG-TS-TBG-15-OR is a 15-inch-class tool bag for installers, electricians, mechanics and DIY users. Its orange and black construction, wide zippered opening and accessible pockets organize tools for the workshop, garage or service vehicle. The front carries the KONGIA rubber badge.

Sixteen pockets comprise 7 exterior side pockets, 3 covered pockets and 6 interior pockets. External MOLLE webbing and a tape-measure clip provide additional attachment options. The 1680D Oxford fabric with PVC coating helps resist everyday splashes; reflective trim improves visibility in low light.

Carry it by the padded handles or use the removable shoulder strap, adjustable from 24 to 45 inches. Offset metal strap clips help keep the opening accessible while carrying. Four non-slip feet help stabilize the base. The maximum recommended load is 30 lb (13.6 kg).

Overall dimensions are 15.75 × 7.87 × 9.05 inches (approximately 40 × 20 × 23 cm). Supplied as one empty tool bag with one shoulder strap; tools and pictured accessories are not included. A practical gift for technicians and home-improvement enthusiasts.

Key features

- 16 storage pockets: 7 exterior, 3 covered and 6 interior
- MOLLE webbing and external tape-measure clip
- 1680D Oxford fabric with PVC coating
- Detachable padded shoulder strap, adjustable 24-45 in
- Comfortable padded carry handles
