KG-TB-ROLL-05 PRO

Oxford 1680D

12.9 × 3.8 × 3.2 in | 32.8 × 9.7 × 8.1 cm

KONGIA 5-year warranty. Excludes overloading, normal wear, cuts, drops, modification, forced closures, exposure outside specifications, and improper use or storage.

Product overview

A compact way to keep your working kit organized. KG-TB-ROLL-05 PRO combines upgraded 1680D Oxford fabric with a water-resistant inner PVC coating, corrosion-resistant zippers, straps, buckles and well-stitched edges for everyday use in a workshop, vehicle or installation job.

The 4 large fixed compartments separate screwdrivers, wrenches, locking pliers, ratchets and other hand tools. The 2 small detachable D-ring pouches keep screws, nails, gears and sockets separate, while the 5 exterior pockets provide quick access to frequently used tools.

Rolled up, it saves space when carrying working or emergency tools in a car, truck, UTV, off-road vehicle, boat, motorcycle or bicycle. A 45-inch adjustable shoulder strap and a comfortable handle provide two practical carrying options.

A useful organizer for carpenters, electricians, plumbers, mechanics, repair professionals and DIY users, and a practical gift for people who work with tools. Illustrated accessories demonstrate use and are not included.

Confirmed rolled dimensions: 12.9 L × 3.8 W × 3.2 H inches (approximately 32.8 × 9.7 × 8.1 cm). The unrolled image shows 19.29 × 13 inches (approximately 49.0 × 33.0 cm). The coating helps the fabric resist water; the complete bag is not rated as watertight or suitable for immersion.

Key features

- 1680D Oxford with inner PVC: upgraded fabric and a water-resistant coating for tool storage and transport.
- 4 + 2 + 5 organization: 4 large fixed compartments, 2 small detachable pouches and 5 exterior pockets.
- Detachable pouches with D-rings: separate small parts so you can find them without rummaging through all your tools.
- Roll-up, foldable format: compact storage for workshop jobs, field service, travel and emergency tools.
- Two carrying options: handle and a 45-inch (114.3 cm) adjustable shoulder strap.
- Durable details: corrosion-resistant zippers, straps, buckles and well-stitched edges.
- Professional use and practical gifting: for mechanics, carpenters, electricians, plumbers, repair professionals and tool enthusiasts.

Applications

Installation and maintenance - Organize screwdrivers, pliers, wrenches and consumables for service visits.

Mechanics and vehicles - Carry selected tools for repairs and emergencies while travelling.

Workshop, carpentry and plumbing - Keep tools and small parts in separate accessible compartments.

Travel and gifting for tool enthusiasts - A portable organizer for people who enjoy manual work and repairs.
